

Track 2

Track 2 – Tuesday 28 September

Time	Name of session		Speakers and details
11-11:50	2.1.1 Organised session Organised session: Holistic Approach to TB Elimination: Real-Life Experiences	Dr Einar Helda, Norwegian Institute of Public Health, Norway Moderator: Prof Tehmina Mustafa, University of Bergen, Norway	<i>Tylleskär presents Helda</i> 11:00-11:03: Hamidah Hussain <i>An Introduction of the Zero TB concept and framework</i> 11:03-11:13: Jolene Chetty <i>Active case finding in adults: An experience from South Africa</i> 11:13-11:23: Mahfuz Rahman <i>Active screening for child TB in public and private sector in Bangladesh</i> 11:23-11:33: Aryn Malik <i>Scaling TB preventive treatment in Pakistan</i> 11:33-11:43: Aneeta Pasha <i>Integrating A comprehensive mental health care model within TB care</i> 11:43-11:50: Q&A
12-12:50	2.1.2 Track highlights: 9000 years with tuberculosis 40 years with HIV	Prof Thorkild Tylleskär, University of Bergen and Prof Tehmina Mustafa, University of Bergen	TB: Prof Graham Bothamley LSHTM HIV: Dr Morna Cornell, University of Cape Town, South Africa: <i>HIV and men: the elephant in the room</i>
14-14:50	2.1.3 Oral presentation. Papers # 149, 313, 358, 414, 120 Oral presentations: Active case finding in TB	Prof Sven Hinderaker, University of Bergen, Norway Moderator: Tehmina Mustafa, University of Bergen, Norway	14:00-14:07: Paper: 149 Mr Abiot Banti <i>Incidence of tuberculosis among persistent coughers after negative smear in Dale woreda southern Ethiopia: a population-based follow-up study</i> 14:07-14:14: Paper: 313 Miss Rosemary James

			<p><i>Policy Considerations for the Early Detection of Tuberculosis Infection: An application of the Shiffman & Smith Framework</i></p> <p>14:14-14:21: Paper 358: Dr Rogers Besigye <i>Where are the TB patients? Reflections from low yield of tuberculosis contact tracing and investigation in Ugandan military health facilities</i></p> <p>14:21-14:28: Paper 414: Mr Abiot Banti <i>Community-wide pulmonary tuberculosis screening in Dale woreda southern Ethiopia: a prospective follow up study</i></p> <p>14:28-14:35: Paper 120: Dr Vinh Vu Hai <i>Alarming tuberculosis rate among people who inject drugs in Vietnam despite full HIV control</i></p> <p>14:35-14:50: Q&A</p>
15-15:50	<p>2.1.4 Organised session</p> <p>Organised session: Residual HIV transmission by breastfeeding</p>	<p>Prof Philippe Van de Perre, Université de Montpellier, France</p> <p>Moderator: Thorkild Tylleskär, University of Bergen, Norway</p>	<p>15:00-15:03: Philippe Van de Perre, Université de Montpellier <i>Introduction</i></p> <p>15:03-15:15: Jean-Pierre Moles <i>Residual HIV transmission by breastfeeding: mechanistic ruminations</i></p> <p>15:15-15:27: Gabriella Scarlatti <i>Passive immunoprophylaxis for prevention of mother-to-child transmission of HIV: the ideal niche for long acting bNABs?</i></p> <p>15:27-15:39: Ameena Goga <i>How to tackle residual transmission in high prevalence/incidence communities?</i></p> <p>15:39-15:50: Discussion and conclusion</p>
16-16:50	<p>2.1.5 Oral presentation. Papers # 283, 66, 108, 192, 194</p> <p>Oral presentations:</p>	<p>Espérance Kashala Abotnes, University of Bergen, Norway</p> <p>Moderator: Thorkild Tylleskär, University of Bergen, Norway</p>	<p>16:00-16:07: Paper 283: Dr Faustin Kitetele <i>"The peer educator is the game changer of my life": Involving HIV infected adolescents in the disclosure in DR Congo.</i></p> <p>16:07-16:14: Paper 66: Dr Rebecca Horton</p>

	<p>HIV in children and adolescents</p>		<p><i>Neuropsychiatric Outcomes in Children and Adolescents with Perinatally Acquired HIV: A Systematic Review and Meta Analysis.</i></p> <p>16:14-16:21: Paper 108: Dr Jean-Pierre MOLES <i>Large community-based intervention and mass screening for HIV control among people who inject drugs in Vietnam: a quasi-experimental study</i></p> <p>192 16:21-16:28: Paper 192: Ms Leticia Sakana <i>'Real world' assessment of the PMTCT cascade performance at 8 weeks post-partum Burkina Faso – Component 1 of PREVENIR-PEV study</i></p> <p>16:28-16:35: Paper 194: Mrs Anais MENNECIER <i>An innovative strategy integrated into the expanded program of immunization (EPI) to improve PMTCT in Burkina Faso, the PREVENIR-PEV study</i></p> <p>16:35-16:50: Q&A</p>
<p>17-17:50</p>	<p>2.1.6 Oral presentation. Papers # 56, 432, 359, 48, 212</p> <p>Oral presentations: Co-infections HIV and TB</p>	<p>Prof Ameena Goga, South Africa Medical Research Council, South Africa</p> <p>Moderator: Thorkild Tylleskär, University of Bergen, Norway</p>	<p>17:00-17:07: Paper 56: Dr Benjamin Kadia <i>Uptake of antiretroviral therapy in programs integrating HIV and tuberculosis treatment in sub-Saharan Africa: a systematic review and meta-analysis</i></p> <p>17:07-17:14: Paper 432: Dr Abdulazeez Lawal <i>Barriers to and enablers of adherence to the treatment of active tuberculosis in HIV patients: a mixed-methods systematic review.</i></p> <p>17:14-17:21: Paper 359: Dr Michael Sssemenda <i>Dynamics of medicine stock management in highly mobile populations: Lessons from 28 military health facilities in Uganda</i></p> <p>17:21-17:28: Paper 48: Dr Ahmad Wali <i>Prevalence of tuberculosis, HIV/AIDS, and hepatitis; in a prison of Baluchistan: a cross-sectional survey</i></p> <p>17:28-17:35: Paper 212: Mr Prince Nnadozie <i>Serosurvey, awareness and sensitization on HIV, HBV, HCV and Mycobacterium tuberculosis among community-based population in Mbano, Imo State, Nigeria.</i></p> <p>17:35-17:50: Q&A</p>

18-18:50	<p>2.1.7 Oral presentation. Papers # 242, 124, 299</p> <p>Oral presentations: Co-morbidity</p>	<p>Prof Ameena Goga, South Africa Medical Research Council, South Africa</p> <p>Moderator: Thorkild Tylleskär, University of Bergen, Norway</p>	<p>242 18:00-18:07: Paper 242: Dr Parameshwari Prahlad <i>A prospective study on treatment outcome of tuberculosis in diabetes patients in a tertiary care centre in Tamil Nadu, India</i></p> <p>124 18:07-18:14: Paper 124: Dr Arnaud Iradukunda <i>Keys factors influencing multidrug-resistant tuberculosis: A Mixt Effects Modelling Study in Burundi</i></p> <p>299 18:14-18:21: Paper 299: Ms Hannah Davies <i>Prevalence of Hepatitis B Infection in Pregnant Women Delivering at Kawempe National Referral Hospital, Uganda: A Nested Observational Cohort Study</i></p> <p>18:21-18:50: Q&A</p>
-----------------	---	---	---

Track 2 – Wednesday 29 September

Time	Name of session	Chair/Moderator	Speakers and Details
10-10:50	<p>2.2.1 Hepatitis</p> <p>Track highlight: Hepatitis 1</p>	<p>Prof. Lars Thore Fadnes, University of Bergen, Norway</p> <p>Moderator: Thorkild Tylleskär, University of Bergen, Norway</p>	<p>10:00-10:03: <i>Intro</i> (Lars Fadnes)</p> <p>10:03-10:13: Dr Homie Razavi: <i>Global disease burden of hepatitis B and progression toward disease control.</i></p> <p>10:13-10:23: Dr Homie Razavi: <i>Global disease burden of hepatitis C, and progression toward elimination.</i></p> <p>10:23-10:33: Dr Aaron Lim: <i>Effects and cost of different strategies to eliminate hepatitis C virus transmission: a modelling analysis using Pakistan as an example.</i></p> <p>10:33-10:43: Prof Mohamed El Kassas: <i>The Egyptian approach to elimination of hepatitis C.</i></p> <p>10:45-10:50 Q&A Homie Razavi, Aaron Lim (Bristol), Maryam Alavi</p>

11-11:50	2.2.2 Hepatitis continues Track highlight: Hepatitis 2	Prof. Lars Thore Fadnes University of Bergen, Norway Moderator: Thorkild Tylleskär, University of Bergen, Norway	11:00-11:05 <i>Introduction</i> (Lars Fadnes) 11:05-11:15: Prof Behzad Hajarizadeh: <i>HCV treatment scale-up and treatment-as-prevention in Australian prisons</i> 11:175-11:27: Prof Maryam Alavi: <i>Interventions to eliminate HCV in Iran</i> 11:30-11:40: Prof Lars Fadnes: <i>Integrated treatment approach for people with substance use disorders (INTRO-HCV).</i> 11:40-11:50: Q&A.
12-12:50	2.2.3 Novel immunomodulatory therapies for post-primary TB: Basic science to the clinical application Paper #287 Novel immunomodulatory therapies for post-primary TB: Basic science to the clinical application	Prof Silke Appel, University of Bergen, Norway Moderator: Tehmina Mustafa, University of Bergen, Norway	12:00-12:02 Silke Appel Introduction 12:02-12:22: Tehmina and Paper 287: Syeda Mariam Riaz <i>session on the novel insights into immunopathogenesis of post-primary TB</i> 12:22-12:42: Anne Ma Dyrhol-Riise (LIVE) <i>A Phase I/II randomized trial of H56:IC31 vaccination and adjunctive Cyclooxygenase-2-inhibitor treatment in Tuberculosis patients</i> 12:42-12:50: Q&A
14-14:50	2.2.4 Oral presentation. Papers # 68, 373, 439, 140, 314 Oral presentations: Extrapulmonary Tuberculosis	Chair: Tehmina Mustafa, University of Bergen, Norway Moderator: Sven Gudmund Hinderaker, University of Bergen, Norway	14:00-14:02 Tehmina Mustafa <i>Introduction</i> 14:02-14:09: Paper 68: Dr Ahmad Wali <i>Healthcare seeking pathways and diagnostic delays among extra-pulmonary tuberculosis patients: a study from Lahore Pakistan.</i> 14:09-14:16: Paper 373: Dr Atiq Ambreen <i>Host inflammatory biomarkers for monitoring response to treatment in extrapulmonary Tuberculosis (EPTB)</i> 14:16-14:23: Paper 439: Dr Shoaib Hassan <i>Pre-diagnostic cost of extrapulmonary tuberculosis from patient perspective in Zanzibar, Tanzania</i>

			<p>14:23-14:30: Paper 140: Dr Abdoulaye Marega <i>factors associated with delay in tuberculosis diagnosis in Nampula, Mozambique, 2020</i></p> <p>14:30-14:37: Paper 314: Dr Mohamad Azlan Hamdan <i>Childhood Tuberculosis and Treatment Outcome in Tertiary Child Referral Hospital: A Retrospective Analysis</i></p> <p>14:37-14:50: Q&A</p>
15-15:50	2.2.5 Supporting hepatitis B elimination by a vaccine dose at birth	<p>Prof. Lars Thore Fadnes, University of Bergen, Norway</p> <p>Moderator: Thorkild Tylleskär, University of Bergen, Norway</p>	<p>15:00-15:05: Prof. Lars Thore Fadnes, University of Bergen, Norway <i>Introduction,</i></p> <p>15:05-15:25: Dr. Henry Njuguna <i>Hepatitis B vaccination at birth</i></p> <p>15:25-15:50: Q&A Conclusion</p>
16-16:50	<p>2.2.6 Oral presentation. Papers # 421, 459, 486, 423, 96</p> <p>Oral presentations: HIV</p>	<p>Dr Terusha Chetty, South Africa Medical Research Council, South Africa</p> <p>Moderator: Thorkild Tylleskär, University of Bergen, Norway</p>	<p>16:00-16:02 <i>Introduction</i></p> <p>16:02-16:09: Paper 421: Ms Mehek Ali <i>Building Community Networks to Address Stigma and Discrimination Against People Living with HIV (PLHIV) in Ratodero, District Larkana, Sindh, Pakistan</i></p> <p>16:09-16:16: Paper 459: Ms Chola Nakazwe <i>Estimating population-level HIV incidence using the synthetic cohort method in Zambia: data from demographic and health Surveys 2002 - 2018.</i></p> <p>16:16-16:23: Paper 486: Mr Olujuwon Ibiloye <i>Adolescent friendly antiretroviral treatment centres in Ogun State Nigeria: disclosure of HIV status and clinical outcomes</i></p> <p>16:23-16:30: Paper 423: Dr Agnes Napyo <i>Barriers and enablers of adherence to nevirapine prophylaxis against HIV 1 transmission among 6-week-old HIV exposed infants in Northern Uganda</i></p> <p>16:30-16:37: Paper 96: Dr Elizabeth Abe <i>Orofacial Lesions Associated with Long-term Highly Active Antiretroviral Therapy among HIV-seropositive Adults in Ibadan, Nigeria</i></p>

			16:37-16:50: Q&A
17-17:50	<p>2.2.7 Oral presentation. Papers # 354, 355, 356, 357, 360</p> <p>Oral presentation: Prevention of HIV in the Ugandan military</p>	<p>Dr Chipepo Kankasa, University Teaching Hospital, Zambia Moderator: Thorkild Tylleskär, University of Bergen, Norway</p>	<p>17:00-17:02 Dr Chipepo Kankasa <i>Introduction</i></p> <p>17:02-17:09: Paper 354: Dr Gloria Seruwagi <i>“Command-Driven”: Improving HIV service delivery using a military leadership approach</i></p> <p>17:09-17:16: Paper 355: Col. Cassette Wamundu <i>Differentiated care to reach the last troop: The Ugandan military experience</i></p> <p>17:16-17:23: Paper 356: Dr Abdul Nyanzi <i>Adapting “MOVE” to accelerate VMMC coverage for HIV prevention in priority populations: Implementation experiences from Uganda’s military</i></p> <p>17:23-17:30: Paper 357: Dr Paul Lubega <i>Implementation of Early Infant Diagnosis for HIV: Experiences from the Ugandan military PMTCT program</i></p> <p>17:30-17:37: Paper 360: Dr Denis Bwayo <i>Implementing a “Low Dose High Frequency” capacity-building approach and its effect on HIV service delivery in Uganda’s military health facilities</i></p> <p>17:37-17:50: Q&A</p>
